Legislative Report 2005: Yellow Page

- 3% reduction for libraries requested by Governor Perdue was restored to the libraries by the General Assembly. PINES did not receive increased funding; however, we should not notice any change in service as a result.
- PINES: Technicians at the state level are working diligently to replace Sirsi by developing a new PINES circulation system using "open source" software. The new system will be much improved over the current Sirsi program we are using. State developed system will be considerably less expensive.
- State Representatives Brian Kemp and Bob Smith were key players in providing funding for library repairs. This will be in the form of matching funds. The Madison County Library is top priority to receive up to \$50,000.00 to repair damage caused by tornadoes in September of 2004.
- State Book Budget remains at .35/per capita. To put this into perspective, it takes 71 people to purchase 1 book.

Circulation Statistics: Blue Page
